

# Many Sources, OneRecord

onerecord™

OneRecord is a cross device engagement platform that enables consumers to access, aggregate, and consolidate their healthcare data using standards-based APIs.

## About the company

We started OneRecord to end the frustrating search for our informations when it comes to our most precious asset - our health.

### Mission Driven Organization

Founded in 2016, OneRecord has been leading the consumer driven healthcare revolution by putting patients first always.

### 73+ Years of Experience

We apply our decades of expereince working at top consumer tech companies and EHR companies to build products people love to use.

### Lean Product-Focused Team

Our team of rock stars hail from Allscripts, Greenway, Microsoft, Facebook, Medfusion, Lyft, Vimeo and Netflix.
